### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Abraham P. Ronai on September 15, 2004.

The application has been amended as follows:

In the claims:

Claims 9-29 have been canceled as being directed to non-elected inventions, the election having been made previously with traverse.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested that the air flow was "oriented alternately at an angle toward the filament sheet as viewed in a horizontal plane" which requires an angle other than directly at the filaments (i.e. 90 degrees). Note that the newly cited reference to Austrian Patent 292178 (cited by applicant in the IDS) appears to suggest that one would have employed a form of a blowing duct with a pulsing of the gas directed toward the filaments (Figure 1), however it appears as depicted that the angle the gas is directed is 90 degrees relative to the direction of the filaments and there appears to be no reason to direct the air at an angle other than 90 degrees whereby the

air flow would have been oriented alternately at an angle toward the filament sheet as viewed in the horizontal plane as depicted in Figure 3 of this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Blaine Copenheaver can be reached on 571-272-1156. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
